

Appl. No. 10/057,652

Reply to Office Action of September 9, 2005

REMARKS/ARGUMENTS

Claim 33, as written in independent form, is indicated to be allowable. Claim 33 is combined above with claim 1 to meet this requirement for allowance. Claims 33 and 31 are canceled. Entry of this amendment and allowance of claim 1 is therefore respectfully requested. Allowance of claims dependent from claim 1 is also requested.

To further reduce issues, the subject matter of claim 33 was also added to claims 14 and 17. This is in an endeavor to render these claims and claims dependent thereon, allowable based on the indication of allowability of the subject matter of claim 33. Such subject matter is not found in or obvious in view of the art cited against these claims and claims dependent thereon, in the last Office Action. Entry of the amendment with respect to these claims in that it avoids all art of record by introducing allowable subject matter into these claims, is respectfully requested. Allowance thereof is also requested in view thereof.

Finally, method claim 20 is amended to depend from claim 1 for the possibility that the non-elected method claims will be rejoined. Claim 21 is canceled as redundant.

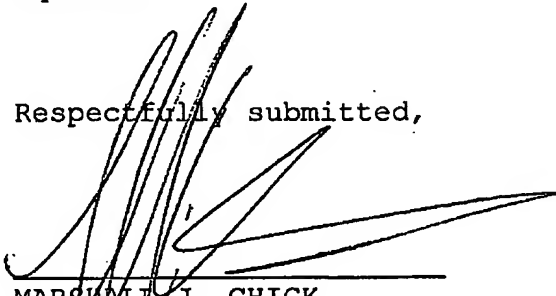

Appl. No. 10/057,652

Reply to Office Action of September 9, 2005

In view of the above, it is submitted that the present invention as now claimed is not shown or suggested by the cited art. Withdrawal of the rejections and allowance of the application are respectfully requested.
